- B. CBERS 2017: WATER YOU DRINKING? (TABLE-TOP EXERCISE)**

Our community relies on drinking water and wastewater’s vital services for public health, healthcare, emergency response, firefighting and food production. In addition, businesses also rely on these services to maintain daily operations. If at any point the local water supply became contaminated, does your organization have a plan in place? Come be a part of the dialogue and a table-top exercise with other local agencies to develop and/or revise your loss of water plan.
